

**CENTRAL MISSOURI SPEEDWAY (CMS)
2025
B-MOD RULES**

Central Missouri Speedway (CMS) is geographically located in an area that allows competitors from a vast area to compete. We do not wish to exclude competitors from racing at CMS due to rules indifferences and it is for this purpose that we have decided to allow cars from the following sanctioning bodies as mentioned below to race at CMS.

CMS will not be sanctioned under any sanctioning body for the 2025 season.

RULES CLARIFICATIONS:

- 1) USRA cars: Aftermarket lower control arms are allowed (must be in stock locations, all aspects).
- 2) POWRi cars: Alternator allowed.
- 3) POWRi cars: 4412 HP and/or XP not allowed.

Refer to the above-mentioned sanctioning bodies' official rule books for additional information. **Do not read between the lines, do not assume you can make things up on your own, ask questions and clarifications if you are unsure of anything. The assigned CMS Technical Inspector has the final say in rules clarification.**
